- Fourth-year BSIT student with hands-on experience in full-stack web application development and NoSQL database management through a capstone project, serving as both project leader and full-stack developer.
- Demonstrates strong problem-solving, critical thinking, teamwork, collaboration, time management, adaptability, willingness to learn, and accountability.
- Familiar with version control systems, AI coding agents, software testing, and UI/UX design principles.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript
- **Frontend Development:** React.js, Tailwind CSS, Vite, HTML, CSS
- **Backend Development:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **Version Control:** Git, GitHub
- **AI-Assisted Development**: OpenCode, AI coding tools
- **Deployment:** Vercel

EXPERIENCE AND PROJECT

Library Management System **Apr 2026 - Present**

Capstone Project | *Full-Stack Developer & Project Leader*

- Led the development of a web-based library management system as part of a BSIT capstone project.
- Integrated AI-powered features, including video generation, text summarization, and text-to-speech (TTS), to enhance the reading experience and support reading comprehension.
- Developed frontend interfaces using React.js and Tailwind CSS and backend functionality using Node.js and Express.js.
- Designed and managed a MongoDB database to support application data and system operations.
- Implemented system features, integrated APIs, and handled application testing and debugging.
- Collaborated directly with the client to gather requirements and align system features with operational needs.
- Collaborated with team members to plan, develop, and refine system functionality.

EDUCATION

STI College Rosario **Aug 2023 - Present**

Bachelor of Science in Information Technology
